

# GOVERNMENT GIRLS DEGREE COLLEGE AHIRLAULA, AZAMGARH

## Implemented Best Practices

Session: 2025-26

Government Girls Degree College, Ahiraula, is dedicated to fostering a comprehensive educational environment that upholds rigorous academic standards while incorporating contemporary technological advancements and a commitment to social responsibility. This report details the institution's principal 'Best Practices' and 'Extension Activities' undertaken to promote the holistic empowerment of its students.

### **Institutional Best Practices**

The college has implemented a student-focused strategy designed to facilitate a smooth transition into higher education and promote an environment of ongoing learning.

1. **Academic Integration (Orientation):** Every academic session commences with a comprehensive **Orientation Program** and **Induction program**. This ensures that new students are well-versed in the college's code of conduct, curriculum structure, and available resources, minimizing the entry-level gap.
2. **Digital Learning and Self-Paced Study:**

**ONOS Implementation:** The 'One Nation One Student' (ONOS) ID initiative has been initiated, aligning the college with national digital educational frameworks.

**SWAYAM NPTEL:** Students are actively encouraged to register for NPTEL courses, allowing them to gain certifications from premier institutes alongside their regular degree.

**AI in Education:** In anticipation of technological advancements, the college has conducted focused seminars on the 'Use of AI in Academics', instructing students on the ethical application of Artificial Intelligence in research and learning environments.

3. **Environmental Stewardship:** The institution emphasises ecological understanding by regularly hosting **Environment Protection Awareness Talks**, encouraging each student to develop a strong sense of responsibility towards sustainable living.

### **Extension and Outreach Activities**

Education at this institution extends beyond the classroom to build character, civic sense, and leadership skills.

### **Empowerment and Skill Building**

Through various wings of the college, students participate in programs designed for real-world impact:

1. **National Service Scheme (NSS) & Rangers:** These units foster a spirit of community service and disciplined leadership.
2. **Mission Shakti:** In alignment with state initiatives, this program focuses on the safety, dignity, and self-reliance of students through skill-based empowerment workshops and awareness drive.

### **Civic Responsibility**

- **Voter Awareness Day:** The college regularly organizes events to educate students on the importance of democratic participation, ensuring they become informed and active citizens.

### **Technological Infrastructure**

To bridge the rural-urban digital divide, the college has prioritized the following:

- **ICT Integration:** The use of Information and Communication Technology (ICT) is a cornerstone of our pedagogy.
- **Smart Classes:** Faculty and students are encouraged to utilize Smart Classrooms to make the teaching-learning process more interactive, visual, and effective.
